

Critical Minerals **Alliances**

The background of the entire page is a futuristic, blue-toned 3D rendering of a city or industrial complex. The buildings and structures are rendered in a semi-transparent, wireframe-like style, with glowing blue lines and dots representing data or energy flow. In the foreground, a large, glowing cylindrical object, possibly a pipe or a component of a machine, is shown in a perspective view, extending from the bottom left towards the top right. The cylinder has a metallic, reflective surface and is surrounded by a dense field of blue dots and lines, suggesting a digital or data-driven environment.

For a Reenergized
North America

Advertising Rates and Specifications

Critical Minerals Alliances will be a full color, slick magazine.

DEADLINE: Ad placement due August 2, 2024; Camera ready due August 15, 2024.

NON-PROFIT ADS: 30% off open rates

PRODUCTION SPECIFICATIONS: Ads should be submitted electronically. Files must be at least 300 dpi and the same dimensions as the space reserved. We prefer PDFs but also accept EPS files with fonts outlined, JPEG and TIFF files. All layers and transparencies must be flattened in submitted material.

PRODUCTION CHARGES: \$100 flat rate. (With up to 2 edits. \$25 for each additional change.)

GENERAL INFORMATION: We reserve the right to reject any advertising that we deem misleading or objectionable.

APPROVED AGENCIES: Approved advertising agencies granted a 15% discount.

DISTRIBUTION: Critical Minerals Alliances will be mailed to North of 60 Mining News and Metal Tech News subscribers in September; posted to the Metal Tech News website (www.metaltechnews.com) on

September 16; posted to Mining News website (www.miningnewsnorth.com) on September 23; and mailed to policymakers in Washington D.C. The magazine will

also be distributed at MINExpo International 2024 in Las Vegas and critical mineral conferences in the U.S. and Canada.

Exploring North American Critical Mineral Alliances

From 5G networks and the smartphones that connect to them, to lithium batteries and the electric vehicles they power, advanced technology and low-carbon energy are demanding staggering quantities of critical minerals.

Industry, governments, investment firms, academia, and NGOs are forming alliances to create responsible and

reliable supplies of critical minerals that will meet this enormous demand being powered by North America's renewable energy, battery, and high-tech manufacturing supply chains.

Critical Minerals Alliances 2024 is a unique magazine the delves into the energy and tech metals markets driving the rocketing demand for critical minerals and metals; US and Canadian projects poised to deliver these materials; and the alliances being forged along the critical mineral supply chains.

This full-color magazine will deliver an in-depth and comprehensive resource to policymakers considering ways to secure reliable supplies of critical minerals and metals; investors looking for companies feeding these minerals and metals into EV, green energy, military, and high-tech supply chains; mining and manufacturing executives looking to position themselves along these value chains; and North American consumers that are increasingly concerned about the environmental and social impacts of the products they use every day.

Don't miss your chance to be a part of this special magazine brought to you by Data Mine North.

SIZE	WIDTH	HEIGHT	PRICE
Full page bleed	8 1/4"	10 3/4"	\$3,454
Full page	7 1/2"	9 1/2"	\$3,454
